TWO PRESCRIPTIONS

One Program, Two Solutions—Choose What's Right for You!

Crete Rx™ ProGrind Honing & Polishing System

- **Routine Maintenance**
Daily Cleaning
- **Interim Maintenance**
Polishing, Stain Remediation
- **Restorative Maintenance**
Honing and Polishing

Crete Rx™ ProCoat Cleaning & Coating System

- **Routine Maintenance**
Daily Cleaning
- **Interim Maintenance**
Top Scrub and Recoat
- **Restorative Maintenance**
Strip and Refinish

Simple Systems with Extraordinary Results

Whichever system you choose for your facility, Crete Rx™ delivers exceptional benefits.

1. ProGrind Honing & Polishing, now enhanced with advanced tooling designed for automatic scrubbers.
2. ProCoat Cleaning & Coating, for ongoing protection and an enduring gloss.

Cuts Time and Labor in Half

Streamline your maintenance routine with a system that dramatically reduces the effort needed to achieve professional results.

Superior Depth of Gloss

Achieve a rich, reflective finish with excellent clarity of image and long-lasting gloss on any cementitious floor.

Guaranteed Protection

Ensure durability even in heavy traffic and shield your floors from premature wear, stains, and other damage.

Simple and Affordable

Crete Rx™ makes protecting and maintaining your flooring investment easy and cost-effective, ensuring you get the most out of your floors.

P R E S C R I P T I O N O N E

ProGrind Honing & Polishing System

	<h4>ROUTINE DAILY CLEANING</h4> <p>Improve gloss and protection while daily cleaning with Densiclean and an SI Cleaning Pad and/or Shine Tool.</p> <p>Optional Burnishing Now with an even better burnishing response, using SI Burnishing Pads significantly pops gloss while strengthening the surface.</p>	<h4>INTERIM POLISHING</h4> <p>Polish with the Shine Tool to restore gloss, then clean and apply Stain Defense. Burnish using an SI Pad.</p>	<h4>STAIN & ETCH REMEDIATION</h4> <p>For larger areas, use an auto scrubber. For smaller areas, use a floor machine.</p> <p>Follow the steps for restorative maintenance.</p>

With NEW cutting-edge tools for any automatic scrubber, the ProGrind prescription is now more accessible and efficient than ever before! This innovative system amplifies the performance of enhanced tooling through advanced chemicals and sealant-infused pads, delivering superior results with fewer passes.

Superior, Natural-Looking Gloss

Achieve a stunning, high-gloss finish in less time than competing systems, enhancing the beauty of your floors.

Exceptional Durability

Low-maintenance results minimize downtime and cost, lasting 3 years before interim maintenance may be needed and 10 years before restorative.

Continual Surface Strengthening

The system strengthens your floors over time while protecting them against stains and wear for long-lasting durability.

Stain and Etch Remediation

Effectively eliminate staining and etching in problem areas, restoring floors to like-new condition.

DENSICLEAN

Cleaner with Densifier

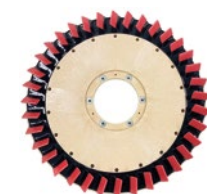

- Increases surface hardness
- Reduces dusting
- Improves abrasion resistance
- Enhances stain resistance

SEALANT INFUSED (SI)

Cleaning and Burnishing Maintenance Pads

- Continually fills porous concrete with sealant, pushing the sealant into the concrete itself
- Circumvents the need for a topical film
- Provides excellent protection and deep gloss

CRETE RX™ SHINE TOOL

Ultimate Shine Tool

- Unmatched gloss level using an auto scrubber
- Sustains floor shine with scheduled or daily use

STAIN DEFENSE & POLISH TOOL

Penetrating Sealer and Polishing Tool

- Penetrating polymers seal off open pores
- Resists staining and etching
- Interacts with sealant-infused polymers
- Creates uniform, continuous protective surface

CONCRETE STAIN REMOVAL KIT

Ready-to-Use Kit

- Convenient kit streamlines the process
- Quart sizes for better portability
- Contains LiquiGrind, Densifier, and Stain Defense

ProGrind Honing & Polishing System

PRESCRIPTION ONE

RESTORATIVE

HONING & POLISHING

Revitalize worn concrete or terrazzo floors with ease. Apply LiquiGrind and use the Grind Tool to remove excessive wear, or opt for the Hone Tool for a less worn floor. Cleaning between each step, next apply Densifier, then use the Polish Tool, and finally apply Stain Defense for added protection. Burnish with an SI Pad.

LIQUIGRIND, GRIND & HONE TOOLS

Honing Compound & Floor Prep Tools

- Proprietary nanoparticle abrasives for increased cutting effectiveness
- Easily removes excessive wear and etching
- Chemistry works synergistically with floor prep tools to accelerate the process

DENSIFIER

Densifying Compound

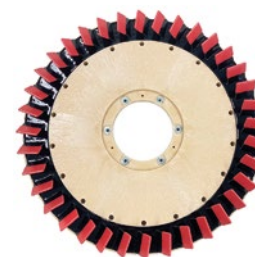

- Increases surface hardness
- Reduces dusting
- Improves abrasion resistance
- Enhances stain resistance
- Reduces maintenance and increases longevity

STAIN DEFENSE & POLISH TOOL

Penetrating Sealer and Polishing Tool

- Penetrating polymers seal off open pores
- Completely fills pores to prevent stain and etch
- Works together with Polishing Tool to create a uniform protective surface

SHINE TOOL, RED

Shine Tool

- Final step prior to Stain Defense to elevate the shine to an extraordinary level
- Effortlessly maintain and sustain your floor's appearance with regular use
- Unlock an unmatched level of gloss
- Ensure a high shine and clarity that stands the test of time

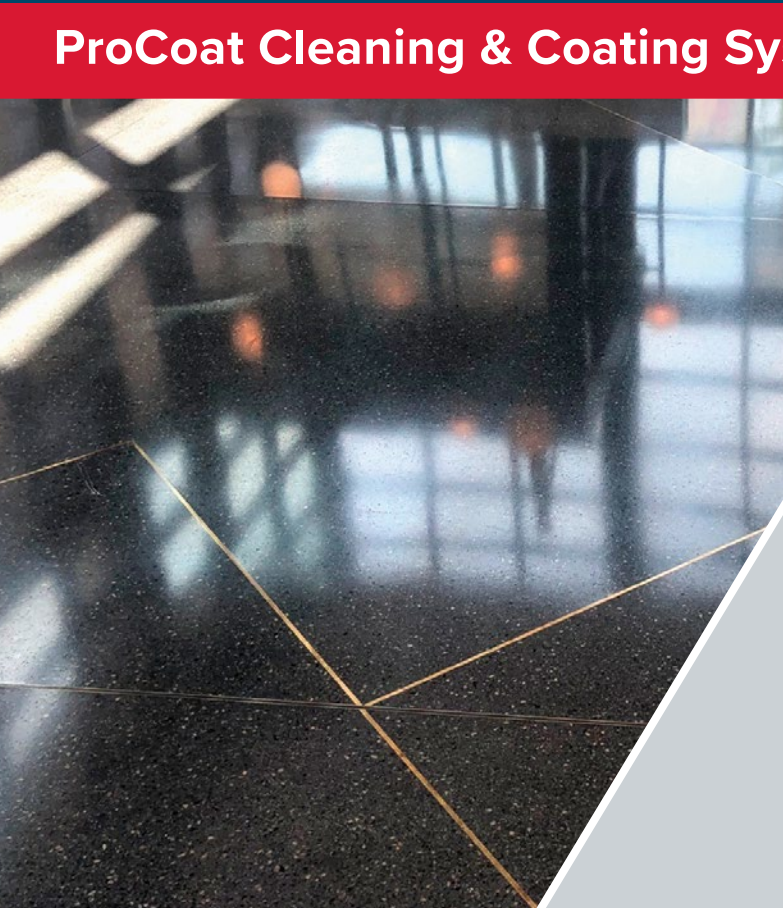

RESET TOOL

Resetting Tool

- Specialized tool to restore, prepare and reset the surface
- Use on deteriorated floors due to heavy traffic, wear or surface damage
- Removes imperfections such as stains, and etches
- Prepares floor for Step 1 Grind Tool

P R E S C R I P T I O N T W O

ProCoat Cleaning & Coating System

			
	<h4>ROUTINE DAILY CLEANING</h4> <p>Simply use a Betco® floor cleaner, like Daily Scrub SC or pH7, in an automatic scrubber with a red pad.</p> <p>Optional Burnishing <i>Burnish using a lite hair pad to easily remove black heel marks, scuffs and scratches, leaving a wet look gloss.</i></p>	<h4>INTERIM TOP SCRUB & RECOAT</h4> <p>To restore high gloss with extended protection, apply 1 - 2 coats of LiquiShield after top scrubbing. Burnish in between coats using a lite hair pad.</p>	<h4>RESTORATIVE STRIP & REFINISH</h4> <p>Apply LiquiStrip to quickly and easily remove even permanent coatings. Then apply 2 - 3 coats of LiquiShield burnishing in between coats and after the final coat with a lite hair pad.</p>

Quickly revitalize and easily maintain your concrete or terrazzo floors with the ProCoat prescription. This innovative system uses a straightforward strip and recoat process, similar to maintaining resilient tile, making it easy to achieve professional results without extensive training or equipment.

Substantial Protection

Protect floors from stains, etching, and wear with a durable coating that requires less intensive labor compared to other systems.

Enhanced Gloss on Any Surface

Whether your floors are pre-polished, non-polished, or previously coated, this system improves gloss, delivering a refined, polished look.

Minimal Training and Equipment

Streamline workflows and adoption with familiar procedures, reducing the need for extensive training and expensive equipment.

Instant, 2-Coat Results

Achieve immediate, high-quality results in 2 coats for better-looking, protected floors with a minimal time commitment.

LIQUISHIELD

Water-Based Concrete Guard

- Easier to apply with low VOCs and odor
- Breathable coating improves gloss and will not peel, flake, or discolor
- Excellent stain and etch protection

LIQUISTRIP

Stripper for Permanent Coatings

- Concentrated solvents easily remove permanent guards without diamond tooling
- Non-flammable and low odor
- Leaves floors clean, film-free, and ready to coat
