

LiquiShield and LiquiStrip

Concrete and Terrazzo's Dynamic Duo

With LiquiShield and LiquiStrip, achieving better looking concrete and terrazzo floors is easier, quicker, and more economical than ever!

LiquiShield

Concrete Guard

LiquiShield is a water-based guard formulated to improve **gloss** while adding substantial **protection** against stain and etch on any cured concrete or terrazzo floor.

- Just two coats needed for excellent stain resistance
- No need for floor finish or conventional coatings
- Resists scuffs, black marks, and soil
- Will not peel, flake, or discolor
- Low odor and easy to apply
- Breathable VOC-compliant coating

LiquiShield performs **best** in these applications:

- Floors that require heavy stain protection
- Providing gloss and protection to non-polished concrete floors
- Terrazzo floors that cannot be polished due to bleed off from divider strips, topical dyes that bleed when dry polished, or non-cementitious composition
- Avoiding tedious edge work

LiquiStrip

Concentrated Stripper for Permanent Coatings

LiquiStrip is a water-based stripper formulated to remove permanent, non-strippable guards and coatings without the use of diamond tooling. This is the ideal for removal of guards for easy repair of stain and etch using the Crete Rx™ Stain Removal Kit.

- Concentrated solvents easily remove even the hardest guards and coatings
- Leaves floors clean, film-free, and ready for new layers of guard or coating
- Low odor
- Non-flammable

AVAILABLE IN:

167804	LiquiStrip	4 x 1 Gal. Bottles
167904	LiquiShield	4 x 1 Gal. Bottles
