

# New Betco® Bag-in-Box Packaging

## Better for the Environment!

Here at Betco®, efforts towards sustainability and environmental responsibility are held to a high company standard. We work hard to meet or exceed health and environmental standards through our ever-evolving products, programs, and services. We are now taking our next step towards a greener Earth by introducing the new bag-in-box packaging initiative.

# Benefits of Bag-in-Box Packaging

## Sustainable Manufacturing

Bag-in-box uses less plastic and resources:

- Reduces waste by 75%
- Reduces greenhouse gases by 52%
- Reduces energy by 81%

## Ease of Use

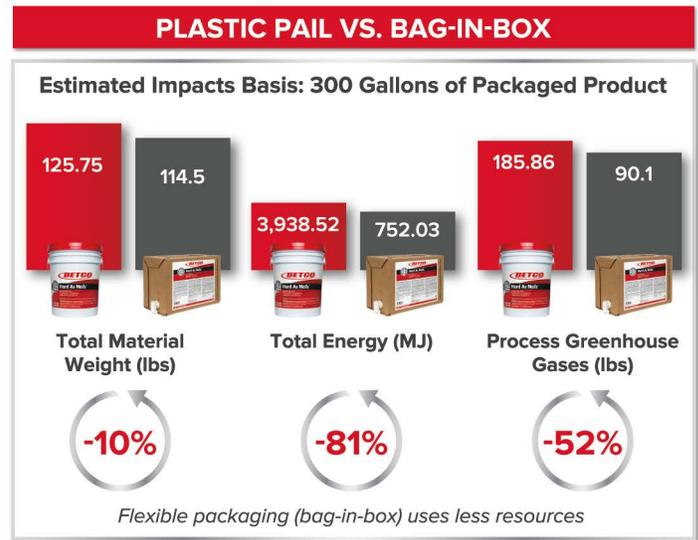

Spigots allow for quick and easy dispensing without heavy lifting, surging, or glugging.

## Storage Benefits

Bag-in-box has no dead space when stacked and cuts needed cubic feet by 39%.

## Efficient Transportation

The rectangular shape is more compact for 20 more gallons per skid.
