

# Symplicity™ Metal Safe Machine Detergent

## *Protect Your Investment of Aluminum, Pewter & Copper Wares!*

Formulated to clean the toughest soils and prevent corrosion on aluminum, copper, pewter, brass and other soft metals. Developed and tested to perform in extreme hard water.

**BETCO®**

# Symplicity™ Metal Safe Machine Detergent

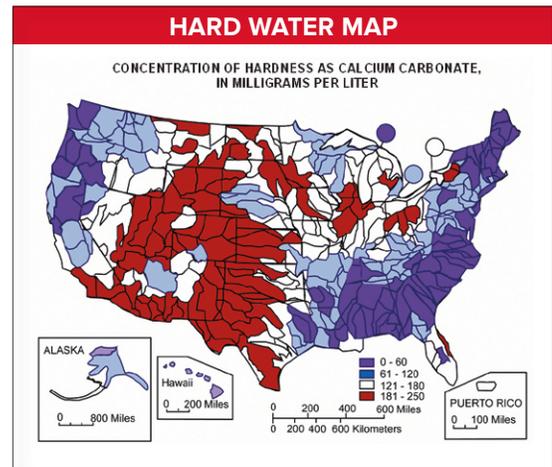

Symplicity™ Metal Safe Machine Detergent allows you to wash your kitchen wares without the damage from most conventional detergents. Concentrated heavy duty, non-chlorinated metal safe machine detergent is effective in high or low temperature machines. Formulated with protecting agents to prevent damage to soft metals while stripping away and emulsifying stubborn food soils, use it to completely clean aluminum, copper, brass, and other soft metals of pots, pans, trays, dishes, glassware, plastic, utensils, and more.

## Proven Results

Unlike the competition, Symplicity™ Metal Safe Machine Detergent:

- Will perform in all water conditions – Soft, medium and extreme hard water.
- Developed and tested with customers around the country to validate performance.
- Successfully cleans soft metals in the hardest water environments in the U.S. (181–250 mg/L as calcium carbonate or 16–20 gpg).
